DMU and Railcar Timeline

Armatures that are available from 2020

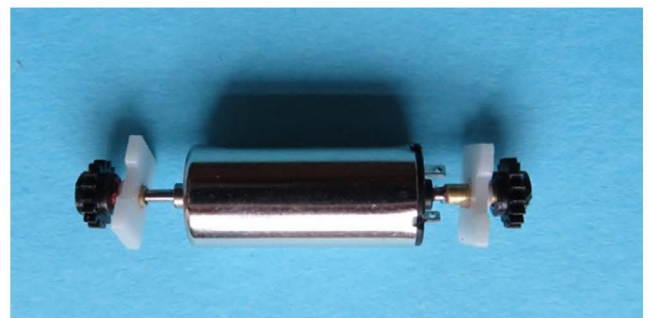

Armature Ref no GF1129

This armature is still in use and is available from stock. It is recommended to fit new bearings when fitting an armature to the older stock (GF0103 Pack of 2).

These were used in the first type of DMU and the HST Motor bogie types circa 1980-1 for DMU and 1981-2 for HST.

Ref number GF1129 still used in steam locos until 2019 approx.

Railcar / DMU 101 Poole manufactured armatures Ref GF8169 has been replaced with CM2020-3 comes with bearings and correct gears inc. wires attaced for power supply.

This type was the follow on to the DMU and the Railcar when both locos were re-chassied to 4 axle drive. Ref No GF8169 Type 3.

This was used in all other diesels in some form or another in 3 types of 5 pole. Last stock exhausted December 2019. Ref No GF8029 Type 2.

Ref No.GF8029 this armature has been replaced by the CM2020-A coreless motor suitable for DCC and Analogue operation.
